

Sun-Ok Lee, PhD
Assistant Professor
Department of Food Science
University of Arkansas, Fayetteville
Phone: 479 575 6921
Email: sunok@uark.edu

Academic interests: Human Nutrition and Toxicology: Disease and Nutrition Therapy, nutritional toxicology, nutritional status assessment, and functional food and health.

Research Focus & Techniques: Research focuses on identification, characterization, and understanding the mechanism for chronic-disease prevention by novel dietary constituents and bioavailability of bioactive components in natural products or foods with relevance to health and disease.

Research techniques including high performance liquid chromatography (HPLC), gas chromatography (GC), liquid chromatography-mass spectroscopy (LC-MS), thin layer chromatography (TLC), radioimmunoassay, immunohistochemistry, histochemistry, biochemical assays, and culture of strict anaerobic microorganisms are utilized.
